

TANUSHREE MAZUMDAR

Data Analyst | SQL | Power BI | Python | Tableau

+91-9140993250 | Kolkata, India | tanushree.mazumdar21@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Data Analyst proficient in data visualization, reporting, dashboard development, and business insights with hands-on experience in SQL, Python, Power BI, Tableau, and Advanced Excel. Experienced in data cleaning, exploratory data analysis, KPI reporting, dashboard development, and data storytelling to support business decision-making.

TECHNICAL SKILLS

- Programming & Databases: SQL (MySQL) | Python (Pandas, NumPy, Matplotlib, Seaborn)
- Data Visualization: Power BI (DAX, Power Query) | Tableau | Excel (Pivot Tables, Power Pivot, Lookup Functions)
- Analytics & Reporting: Data Cleaning | EDA | Data Modeling | Dashboard Development | KPI Reporting | Data Storytelling
- Tools: Microsoft Azure (Basics), Jupyter Notebook, GitHub

FEATURED PROJECTS

SaaS Revenue & Churn Analysis | MySQL, Excel | [Link](#)

- Completed churn analysis report for a 600-customer SaaS dataset, highlighting a 52% churn rate to support customer retention planning.
- Designed an 8-KPI Excel dashboard using Power Pivot and DAX, identifying 47.83% at-risk customers by plan and billing cycle.
- Recommended targeted retention strategies by evaluating CLV vs. CAC, feature usage, and NPS scores across high-risk customer segments.

Superstore - End-to-End Sales & Profitability Analysis | Python, MySQL, Power BI | [Link](#)

- Prepared and transformed 9,986 Superstore records using Python by cleaning, validating, and integrating sales, returns, and customer data for analysis.
- Performed SQL analysis to identify regional sales trends, profit leakage, return patterns, customer segments, and top-performing products through advanced queries.
- Created a 3-page Power BI dashboard highlighting \$2.30M sales, 20.36% YoY growth, 12.47% profit margin, and customer risk insights for business reporting.

Healthcare Claim Analysis | MySQL, Tableau | [Link](#)

- Analyzed 50K+ healthcare insurance claims using SQL to identify claim cost distribution, billed vs paid discrepancies, and high-cost claim categories.
- Identified the top 10 CPT and ICD codes contributing to the highest paid amounts, revealing major healthcare cost drivers across insurance claims.
- Developed an interactive Tableau dashboard visualizing claim costs, paid ratios, provider performance, and member-level spending to support financial analysis.

PROFESSIONAL EXPERIENCE

Data Science Intern | Prodigy InfoTech | Remote | May 2026 – June 2026

- Developed a Power BI dashboard using World Bank data (265 countries, 1960–2024) to visualize population, migration, and demographic trends through interactive KPIs.
- Conducted exploratory data analysis on the Titanic dataset using Python, identifying passenger class and gender as the strongest survival indicators.
- Built a Decision Tree classification model on 45,211 UCI Bank Marketing records, achieving 89.58% prediction accuracy for customer subscription analysis.
- Performed sentiment analysis using Python and Tableau to identify discussion themes, sentiment distribution, and public opinion trends from textual data.

Data Analytics Intern | Deloitte Australia | April - May 2026

- Developed a Tableau dashboard to analyze equipment downtime across 4 manufacturing plants.
- Classified workforce equality scores in Excel using logical formulas for reporting.

Underwriter | Wipro Pvt. Ltd., Kolkata, India | July 2022 – November 2023

- Evaluated 30–40 financial applications daily using risk assessment guidelines to support credit decisions.
- Reviewed customer financial data to identify risk factors and maintain underwriting accuracy.

Accounts Payable | Genpact Pvt. Ltd., Kolkata, India | March 2017 – July 2018

- Processed vendor invoices using SAP and Excel, ensuring accurate reconciliation and timely payments.
- Verified invoice data and resolved payment discrepancies while maintaining accurate financial records.

EDUCATION

Master's Program – Data Analyst | Simplilearn × IBM | 2023–2025

SQL · Python · Power BI · Tableau · Business Analytics with Excel · Data Science with R

Bachelor of Commerce (Accounting & Finance) | Sunbeam College, MGKV Varanasi | 2013–2016

CERTIFICATIONS - [Link](#)

- HackerRank SQL (Basic) Certification

Career Break (July 2018 – July 2022) - Took a career break for family medical responsibilities; upskilled in data analytics upon return
