

TANUSHREE MAZUMDAR

Data Analyst | Python | Power BI | Tableau | Advanced Excel | SQL

+91-9140993250 | Kolkata, India | tanushree.mazumdar21@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

TECHNICAL SKILLS

- **Programming & Databases:** Python | SQL | MySQL
- **Business Intelligence:** Power BI (DAX · Power Query) | Tableau
- **Microsoft Office Suite:** Advanced Excel (Pivot Tables · VLOOKUP · XLOOKUP · Power Pivot · Conditional Formatting) · Word · PowerPoint
- **Data Analytics:** MIS Reporting | Data Cleaning | EDA | Data Validation | Data Reconciliation | Data Visualization | Business Insights | Feature Engineering
- **Tools & AI:** Jupyter Notebook | GitHub | Google Workspace | ChatGPT | Claude

FEATURED PROJECTS

SaaS Revenue & Churn Analysis | MySQL, Excel | [Link](#)

- Analyzed a 600-customer SaaS dataset to identify churn patterns, revenue trends, customer segments, and retention opportunities.
- Built MIS-style Excel dashboard using Power Pivot, Pivot Tables and DAX – tracking weekly MRR churn rate and CLV across customer segment to support management reporting.
- Evaluated revenue, CLV, CAC, feature usage, and NPS metrics to identify business performance drivers and support retention recommendations.

Superstore - End-to-End Sales & Profitability Analysis | Python, MySQL, Power BI | [Link](#)

- Cleaned, validated, and transformed 9,986 sales records using Python, integrating sales, returns, and customer data for analysis.
- Performed SQL-based sales and transaction analysis to identify profit leakage, return patterns, regional performance, customer behavior, and key business drivers.
- Developed a Power BI data model and 3-page dashboard with DAX measures to monitor sales, profit, customer, and regional KPIs — identifying trends, variances and performance gaps for executive reporting.

Healthcare Claim Analysis | MySQL, Tableau | [Link](#)

- Analyzed healthcare insurance claims using SQL to identify cost distributions, billed-versus-paid discrepancies, and high-cost claim categories.
- Performed data analysis to identify CPT and ICD codes contributing to the highest paid amounts and major healthcare cost drivers.
- Developed an interactive Tableau dashboard to visualize claim costs, paid ratios, provider performance, and member-level spending.

PROFESSIONAL EXPERIENCE

Data Science Intern (Project-Based) | Prodigy Info-tech | Remote | May 2026 – June 2026

- Developed a Power BI dashboard by building a data model and creating DAX measures to visualize population, migration, and demographic trends across 265 countries.
- Conducted exploratory data analysis (EDA) using Python, identifying trends, patterns, and key survival indicators in the Titanic dataset.
- Built a Decision Tree classification model on 45,211 UCI Bank Marketing records, achieving 89.58% prediction accuracy, and performed sentiment analysis using Python and Tableau to identify themes, sentiment distribution, and public opinion trends.

Data Analytics Intern | Deloitte Australia | April - May 2026

- Developed Tableau dashboards and reports to analyze equipment downtime, identify performance trends, and support manufacturing reporting.
- Validated workforce equality data and performed data quality checks using Excel to ensure accuracy and consistency before reporting.
- Applied Excel logical formulas to classify equality scores and support data analysis, reporting, and identification of potential process improvement areas.

Underwriter | Wipro Pvt. Ltd., Kolkata, India | July 2022 – November 2023

- Evaluated 30–40 financial applications daily by reviewing customer financial information, financial indicators, and risk factors through Microsoft Dynamics 365 CRM.
- Validated customer information and supporting documentation against established guidelines, identifying discrepancies and maintaining data accuracy and quality.
- Prepared daily and monthly operational MIS reports. Analyzed financial data and collaborated with management to support risk-based business decisions

Accounts Payable | Genpact Pvt. Ltd., Kolkata, India | April 2017 – July 2018

- Released vendor payments using SAP and Excel after verifying invoice and payment details, ensuring accurate and timely payment processing
- Reconciled vendor transactions and payment records, investigated discrepancies, and performed data validation and financial reconciliations to maintain data accuracy.
- Coordinated with internal stakeholders to resolve payment discrepancies and supported timely MIS reporting, data consolidation and month-end activities.

EDUCATION

Bachelor of Commerce (Accounting & Finance) | Sunbeam College, MGKV Varanasi | 2013–2016

PROFESSIONAL CERTIFICATIONS - [Link](#)

- Data Analyst Master's Program (Professional Certification) | Simplilearn × IBM | 2023–2025
Relevant Coursework: SQL · Python · Power BI · Tableau · Advanced Excel · Data Science with R
- HackerRank SQL (Basic) Certification

Career Break (July 2018 – July 2022) – Took a career break for family medical responsibilities; upskilled in data analytics.
